

KOHLER®
Smart Toilets

“We believe in leading with design and seamlessly incorporating the right technologies so that our customers can personalize their bathroom experiences to be just right for them.”

David Kohler
Chair and CEO, Kohler Co.

KOHLER®

Smart Toilets

Choosing a KOHLER Smart toilet is a declaration that the details matter. And next-level innovation must be matched with unrivaled design. Every KOHLER smart toilet is born of an obsessive attention to detail, crafted to elevate a user's experience and exceed their expectations.

Meaningful Innovation

Every KOHLER® smart toilet is engineered with exceptional attention to design, cleanliness, hygiene, and personalization.

Design

With a deep focus on human-centered design, we uncover the technologies that matter to users. Then we look to nature, not machines, to draw visual inspiration—pairing beautiful, approachable designs with intuitive, highly personalized features.

“On smart toilets we have teams with different expertise coming together. We have user-experience expertise, we have human-factor expertise, and we have engineering expertise, all coming together as a team to find that balance to deliver the right product.”

Lun Cheak Tan

Vice President Industrial Design
Kitchen & Bath Group, Kohler Co.

Cleanliness

We make each design decision with a focus on ensuring exceptional cleanliness—for the toilet and the user. With automatic UV-light cleaning of the wand, pre-use bowl mist for more effective flushing, and a stainless steel wand—not plastic like many other toilets with bidet functionality—KOHLER® smart toilets are designed to operate cleanly and stay clean between use.

Hygiene

KOHLER® smart toilets deliver an elevated level of cleanliness for users. Automatic flush and automatic opening and closing of the lid create a touch-free experience while the stainless steel bidet wand delivers personal cleansing and comfort. Smart toilets also feature UV-light cleaning technology, which automatically sanitizes* the bidet wand every 24 hours.

*Tested against *Escherichia coli*, *Staphylococcus aureus*, and *Pseudomonas aeruginosa*.

Personalization

With each feature, we invite users to fine-tune their experience. Remote operation enables personalization of features, including water pressure, water temperature, heated seat, warm-air dryer, and lighting.

Innate™

The nexus of performance,
value, and cleanliness

Inspired by the vastness of space and the organic movement of large waves, the Innate smart toilet emerged from designers looking at nature and how we react to it. An affordable option, it integrates quality flushing performance and personal cleansing functionality into a versatile design.

Veil®

Minimalism celebrated

The Veil smart toilet epitomizes minimalist and ergonomic design with flowing and immaculately balanced curves. It's available in wall-mount and floor-mount options.

Veil

Eir®

An artful approach to design and technology

The Eir smart toilet exemplifies the art of innovation with its flowing lines and options for finish detail. It pairs a high-performance flushing platform with the latest in personal hygiene. Finish details are available in Rose Gold, and Sunrise Gold.

Numi® 2.0

The future reimagined

KOHLER.Konnect

Unmatched in design and technology, the Numi 2.0 smart toilet features personalized settings that let users fine-tune every option to their exact preferences. Kohler's most advanced toilet, it marks a new standard of excellence in the bathroom with its striking form, exceptional water efficiency, and unexpected features, including ambient lighting, *Bluetooth*® wireless technology, and Amazon Alexa connectivity. It's available in White and Honed Black.
